# Join the fun!

Travelling on two wheels is different. Different from driving a car, different from sitting on the bus.

When you ride a scooter, you become a part of the world around you. You feel pockets of warm and cool air, you smell fresh-cut grass or the local bakery as you ride past, you see the birds and rainbows unobstructed by a roof or a window.

Best of all, you enjoy every ride, whether it's a quick run to the corner store or a fun trip with your friends to the lake.

And when you ride a scooter, you're automatically welcomed into a group of like-minded enthusiasts — guys and girls who enjoy the same things as you do. Meet another scooter rider, and you instantly share a deep connection. It's why riders wave to other riders when they pass on the street.

At Honda, we understand how passionate riders become about their scooters. That's why we build scooters that bristle with innovative technology, that consider **safety** in the design of every component, that address environmental issues in their low emissions and quiet operation, that work with the reliability and predictability that you would expect from a Honda. Most of all, we build scooters that are **fun** — scooters that you want to ride, today and every day.

The Honda Ruckus, Jazz and Silver Wing have been developed with all of these principles in mind.

Their dependable four-stroke engines produce predictable, smooth power while getting great fuel mileage. Their V-Matic™ automatic transmissions make it easy to get going from a stop, eliminate the risk of stalling, and require no shifting — not even into neutral or park. Their exhaust systems are quiet and include an oxidation catalytic converter for low emissions and reduced impact on the **environment**. Their chassis are carefully engineered to deliver handling that makes riding fun, not intimidating.

This same philosophy can be seen everywhere you look on a Honda scooter. Clever touches such as the positioning of the gas tank under the floorboards of the Jazz and the Ruckus that lowers overall centre of gravity for better handling, and the Combined Braking System on the Jazz and the Silver Wing that improves your confidence and control at stops. It all adds up to a scooter that just feels right. The first time, and every time.

Take a ride on a Honda scooter, and experience the joy of riding for yourself. And don't forget to wave.

## SAFE STOPPING

To help you stop with confidence, the Jazz and Silver Wing use Honda's Combined Braking System that applies braking force at the front wheel whenever the rear brake is operated. When you pull on the front brake lever, the front brake operates normally. When you pull on the rear brake lever, some of the force is also applied to the front to automatically balance braking force between the two wheels. The result? Safer, more controlled stops. The Silver Wing also features the extra benefit of Anti-lock Braking System (ABS).

## CLEANER POWER

What are the advantages of the four-stroke engines used in Honda scooters? Compared to a two-stroke engine, a four-stroke runs cleaner and quieter, doesn't require oil to be mixed with gas, produces a broader powerband, and typically requires less maintenance. Honda scooters also use an oxidation catalytic converter and other advanced technology to reduce emissions even further.

Ruckus

Rugged look, amazing performance. The Honda Ruckus gets noticed with its out-of-this-world styling, but what you'll like even better is how eager it is to take you just about anywhere you want to go.

This fun little knock-around scooter gets its go-power from a lightweight 49 cc engine that can happily run for hours on very little gas. Getting going from a stop is a breeze thanks to the engine's strong low-end torque and the V-Matic automatic transmission that means no shifting, ever. Twist the throttle and go! That's all there is to it.

A low seat height and low overall centre of gravity makes the Ruckus easy

to handle in the city. And when you want to explore some out-of-the-way roads, you'll love the oversize deep-tread tires that grip hard on gravel or dirt as well as on pavement.

It's a Honda, so you know the Ruckus will give you years of enjoyment with a minimum of maintenance. And that's a good thing. Because with a scooter this easy to operate and this much fun, you'll be doing *a lot* of riding.

## SPECIFICATIONS

Engine type	Liquid-cooled single-cylinder four-stroke
Displacement	49 cc
Bore & stroke	37.8 mm x 44 mm
Compression ratio	11.9:1
Valve train	SOHC, two-valve
Fuel delivery	18 mm CV with auto choke
Transmission	Automatic V-Matic belt drive
Front suspension	Twin downtube fork; 56 mm (2.2 in.) travel
Rear suspension	Single shock; 66 mm (2.6 in.) travel
Tires	120/90 - 10 front; 130/90 - 10 rear
Brakes	Front drum; rear drum
Seat height	735 mm (28.9 in.)
Seating capacity	One
Wheelbase	1,265 mm (49.8 in.)
Curb weight	88 kg (194 lb) including required fluids and full tank of gas - ready to ride
Fuel capacity	5 litres
Colour	Fighting Red, Mat Axis Grey Metallic

**KEY FEATURES** Unique styling with big twin headlights gives the Ruckus a look like nothing else on the road • Lightweight 49 cc four-stroke liquid-cooled engine delivers strong performance, plus great fuel economy and low emissions • Simple push-button electric starter gets you going quickly • Automatic belt-drive transmission provides spirited acceleration and requires little maintenance • Well-padded seat boasts a low 735 mm (28.9 in.) height for added confidence at stops and easy manoeuvring

Jazz

Cool colours. Smooth and sleek European styling. Beautiful finish quality. For a scooter that perfectly suits your sense of fashion, you'll want to take a good look at the Honda Jazz.

With its clean, quiet and dependable four-stroke engine, the Jazz has plenty of power for brisk acceleration when you pull away from a stop. And you never have to worry about shifting or stalling thanks to the V-Matic automatic transmission. Red light ahead? The Combined Braking System brings you to a halt quickly and safely, and a low seat height means your feet can easily reach the ground.

Whether you're heading out to work,

to the cafe, or to your favourite clothing store, you'll love the lockable storage area under the seat that swallows up a full-face helmet, and the handy shopping-bag holder built into the protected area by your legs. The Jazz is so light and easy to handle that squeezing into a tight parking spot and putting it up on its lockable centrestand takes hardly any effort at all.

Easy and economical to operate, and built tough to keep up with your busy lifestyle. Wait till your friends see you on your new Honda Jazz!

**KEY FEATURES** Efficient four-stroke liquid-cooled engine consumes substantially less fuel and produces significantly lower exhaust emissions than a comparable two-stroke engine • Automatic V-Matic transmission makes riding a breeze — there's no clutch and no shifting required, not even into park • Combined Braking System activates both front and rear brakes when you pull on the left handlebar lever to help ensure safe, controlled stops • Lockable underseat compartment offers nearly 22 litres of storage capacity for books, groceries, a helmet... you name it • Eye-catching retro styling with a selection of colour choices always looks right in fashion

# Silver Wing

You love the comfortable size and simple convenience of a scooter, but you also love the idea of long-distance adventures — two-up and loaded with luggage. Can one vehicle do both? You bet: the versatile Honda Silver Wing.

The fun and friendly Silver Wing can zip around the city with ease, yet it thinks nothing of taking off on a moment's notice to the next town or the next province. Its big 582 cc liquid-cooled twin-cylinder four-stroke engine with efficient and clean fuel-injection provides plenty of smooth power for effortless all-day riding. And the V-Matic automatic transmission means you'll never have to shift or worry about stalling. To help ensure safe stops,

you can count on the sophisticated Combined Braking System featuring Anti-lock Braking System (ABS) brakes.

It's no coincidence that the Silver Wing shares part of its name with the world's most luxurious touring motorcycle — the legendary Gold Wing. You can see the Gold Wing's influence in the spacious two-tier seat that coddles you and your passenger in comfort, and in the aerodynamic bodywork that slices quietly through the wind while helping to protect you from the elements.

Part scooter, part motorcycle. And 100 percent fun. That's the Honda Silver Wing.

## SPECIFICATIONS

Engine type	Liquid-cooled twin-cylinder four-stroke
Displacement	582 cc
Bore & stroke	72 mm x 71.5 mm
Compression ratio	10.2:1
Valve train	DOHC, eight-valve
Fuel delivery	PGM-FI with auto choke
Transmission	Automatic V-Matic belt drive
Front suspension	41 mm hydraulic fork; 119 mm (4.7 in.) travel
Rear suspension	Dual shocks with adjustable spring preload; 114 mm (4.5 in.) travel
Tires	120/80 - 14 front; 150/70 - 13 rear
Brakes	Front 256 mm disc with three-piston caliper; rear 240 mm disc with twin-piston caliper. Combined Braking System and Anti-lock Braking System
Seat height	754 mm (29.7 in.)
Seating capacity	Two
Wheelbase	1,595 mm (62.8 in.)
Curb weight	250 kg (551 lb) including required fluids and full tank of gas - ready to ride
Fuel capacity	16 litres
Colour	Candy Wine Berry Red

**KEY FEATURES** Combined Braking System with integral ABS helps you stop with confidence • Automatic transmission matches the engine's power to a wide range of operating conditions • Cavernous 55-litre underseat storage compartment is big enough to hold a pair of full-face helmets or a weekend's worth of luggage • Fully integrated bodywork was developed in the wind tunnel to reduce wind noise and help protect you from the elements • Air-injection system, exhaust catalytic converter and advanced ignition mapping combine to reduce emissions from the liquid-cooled four-stroke engine

## Honda Genuine Accessories

Style and function. Honda scooters provide you with a practical, economical and fun way to get around, while also looking right in fashion.

The same thing also describes Honda Genuine Accessories. From handy carrying racks to stylish casual wear, you'll love the way our accessories give you and your scooter a look all your own.

Honda is synonymous with quality and performance, and Honda Genuine Accessories are no different. They are the only accessories that have been approved by the engineers who originally designed your Honda. This ensures that they'll look great, and that they'll fit right, too.

Here are just a few of the many accessories available for you and your Honda. For the most up-to-date information on the complete line, visit [honda.ca](http://honda.ca).

### Hairpin hoody

Black with red trim and featuring a scooter logo, this cozy super-soft stretch-fleece hoody lets everyone know you're a scooter rider.

### Jazz rear carrier

Just the thing when you need a little extra carrying capacity. Plus, its gleaming chrome finish adds a custom styling touch. Maximum cargo weight is 3 kg (6.6 lb).

### Jazz basket

Stash your sunglasses, maps, your lunch, whatever. This sturdy metal basket can carry up to 1.5 kg (3.3 lb) of whatever you can't go without.

### Apex casual jacket

Made of nylon/spandex fabric, this comfortable zip-up jacket fits perfectly under a riding jacket.

### Jazz rear trunk

Designed to attach to the Jazz rear carrier, this handy lockable trunk is great for all your errands around town. Maximum cargo weight is 1 kg (2.2 lb).

### Red Line pants

The perfect match for the Hairpin hoody, also made of super-soft stretch fleece.

### Jazz windshield

Protection and style at the same time, thanks to this durable acrylic windshield that's easy to install.

Honda offers a full line of motorcycles, ATVs, cars, trucks, power equipment and marine products to meet your outdoor needs

Riding a scooter can be hazardous. For your safety always wear a helmet, eye protection and protective clothing whenever you ride. Never ride under the influence of drugs or alcohol, and never use the street as a racetrack. Inspect your scooter before riding, read your owner's manual, and Honda recommends that all riders take a rider training course. Always obey local laws, use common sense and respect the rights of others when you ride. Make sure you have the proper licence when riding on public roads and obtain written permission before riding on private land.

Specifications are subject to change without notice. Although descriptions, model images and colours are believed to be correct, accuracy cannot be guaranteed. All specifications in this brochure apply only to models sold and registered in Canada. See your Honda Motorcycle dealer for details.
